

# Secure your fortune

"Fortune" is a term used to describe the future, or a favorable financial status. Either way, it's a crucial part of any business looking to move ahead. With a rapidly changing climate in both the O.E. and aftermarket industries, you need a supplier you can rely on. Rather than sending your customers to the O.E. dealer for late-model parts, trust A1 CARDONE's First Source program, featuring early & late-model coverage and high-tech parts. With CARDONE Priority Plus overnight delivery service, there is no need to manage large, costly inventories and for those rare times when a part isn't available, turn to CARDONE's 48-hour Rebuild & Return service.

Every business has a fortune. Let CARDONE help secure yours.
