GREEN
WAS IN REMAN BEFORE
GREEN
WAS "IN"

When you buy A1 CARDONE reman,
you help save 54,200 tons of cores
from scrap yards every year.

You also have the best availability for
any make ranging from vintage to
current model year. With all the
uncertainty that exists with offshore
quality and the high cost of OE, who
could ask for a "greener" solution —
for the earth and your wallet.

A1 CARDONE

Visit www.cardone.com for more details
on how CARDONE is working to reduce
greenhouse gases and help preserve
our environment.
