

FLASH²

ALL-MAKES REPROGRAMMING

Let **CARDONE Service Plus** perform **FLASH Reprogramming** for your **GM, Ford and Chrysler applications now!** All other makes will become available as O.E. manufacturers release their data.

When you need fast, dependable FLASH Reprogramming, but can't afford to have the tools yourself, **CARDONE Service Plus** has your solution! Our FLASH² All-Makes Reprogramming department offers two easy ways to service your needs:

- Order your ECC and FLASH Reprogramming through **CARDONE's Priority Plus Service** at 1-800-777-4780 (24-hour turn-around time).

— OR —

- Send your ECC to **CARDONE** for R&R and FLASH Reprogramming service (turnaround is 3-5 business days)

If you want the ability to perform FLASH Reprogramming at your own facility, consider the **CARDONE Service Plus FLASH² All-Makes Reprogrammer!** It costs thousands less than the OE reprogrammer systems, and our reprogrammer allows you to reprogram ECMs without a scan tool! You have the option to select one or more vehicle manufacturers to suit your reprogramming needs. All hardware and software are available in options of your choice, and each gives you the ability to FLASH Reprogram.
